

How to proceed in the event of an accident or an incident with an airplane

Date: 05/04/2021

Rev.1

Overview & Purpose

This lesson will walk you through the Fly Time Aviation procedures in the event of an accident or an incident with an airplane in a Fly Time Aviation airplane.

Activity

1. As safely as possible, perform any tasks needed to assist with the safest possible outcome of the accident or incident. Comply with any state and federal laws as applicable.
2. Determine if the accident or incident meets the criteria of current CFR part 830.2. As of 5/4/2021 the definition of an *Aircraft accident* means an occurrence associated with the operation of an aircraft which takes place between the time any person boards the aircraft with the intention of flight and all such persons have disembarked, and in which any person suffers death or serious injury, or in which the aircraft receives substantial damage. For purposes of this part, the definition of “aircraft accident” includes “unmanned aircraft accident,” as defined herein. The definition of an *Incident* means an occurrence other than an accident, associated with the operation of an aircraft, which affects or could affect the safety of operations.
3. Comply with all parts of current CFR part 830 as applicable.
4. Do not communicate with the media if requested to do so.
5. Obtain the insurance from the other party involved if applicable.
6. Notify personal non-owned insurance policy of the event.
7. Notify dave@flytimeaviation.com of the event.
